Direct GO Count (CC) [blast_result]

Horizontal bar chart showing #Seqs (x-axis from 0 to 3,500 in increments of 250) for cellular component GO terms:

- cytosol
- integral component of membrane
- nucleus
- nucleolus
- membrane
- cytoplasm
- plasma membrane
- chromatin
- perinuclear region of cytoplasm
- external side of cytoplasm
- endoplasmic reticulum membrane
- nuclear matrix
- mitochondrion
- endosome
- Golgi apparatus
- cytoplasmic membrane
- external side of plasma membrane
- endoplasmic reticulum
- extracellular space
- integral component of plasma membrane
- ribonucleoprotein complex
- receptor complex
- nuclear membrane
- mitochondrial matrix
- intracellular pore
- protein-containing complex
- mitochondrial membrane
- endoplasmic reticulum-Golgi intermediate
- intracellular membrane-bounded organelle
- cell cytoskeleton
- postsynaptic density
- ribosome
- focal adhesion
- synapse
- apical plasma membrane
- endoplasmic reticulum lumen
- catalytic step
- integral component of endoplasmic reticulum
- dendrite
- extracellular exosome
- cytoplasmic tail
- cell junction
- tRNA-intron endonuclease complex
- fibrillar center
- others
